VALVES & CORROSION PREVENTION

SUPPORTING CANADIAN ENERGY
GROWTH
With a commitment to personal and professional Growth is how Altek came to exist, and with a Growth Mindset, Altek has continued to succeed. This mindset will continue to be a key driver in our daily actions to create more value for our customers and suppliers and opportunities for our employees.

Altek will persistently focus on creating more today, and being better today than we were yesterday.

TRUST
Trust is the lifeblood of any relationship. Altek is and will continue to be the most trusted partner of our customers, suppliers and employees. We will cherish this trust and never sacrifice it for apparent short-term gains. We will work tirelessly to create and sustain an environment that enables our employees to reach their potential, encouraging and continually creating opportunities for growth and advancement.

IMPACT
Altek will positively impact all our relationships: our customers, suppliers and co-workers as well as the communities we work in including responsible charitable organizations locally and abroad.

GROWTH.TRUST.IMPACT.
CORROSION PREVENTION

ALTEK SUPPLY
Denso’s anti-corrosion and sealing products have a proven track record of solving problems in all kinds of challenging environments worldwide, above or below ground and underwater.

**PROTAL PIPELINE COATINGS:** We offer a full range of fast cure, high build for a variety of above and below ground corrosion protection. The Protal Pipeline Liquid Coatings can be applied by hand or spray method and can easily be applied in high and low temperature environments. They are also great for protecting girth welds, tie-ins, cadwelds, fittings, fabrications, repairs to FBE, and rehabilitation to existing pipelines.

PETROLATUM TAPE SYSTEMS: Denso’s Petrolatum Tapes or Wax Tapes have been around over 80 years, with Denso Tape being the first one developed. These high performance products provide above and below ground and underwater protection to pipelines, fittings, flanges, tank bases, steel structures and many more. Denso’s petrolatum tape wrap systems can easily be applied by hand to most surfaces in arctic and tropical temperature environments.

PETROLATUM TAPES

DENSYL TAPE
All purpose Petrolatum Tape. Max Temp: 70°

DENSO WB TAPE
Hi-Tack Petrolatum Tape with Polymer Backing for Sandy Soils

DENSO LT TAPE
Low Temperature Petrolatum Tape Max Temp: 50°

DENSYL HI-TACK TAPE
Hi-Tack Petrolatum Tape

DENSO HOTLINE TAPE
High Temperature Petrolatum Tape
Max Temp: 110° (Above Ground)
Max Temp: 80° (Below Ground)

SEALING & MOLDING: Denso’s self-supporting molding compounds for irregular surfaces, such as flanges and couplings, are used in conjunction with petrolatum tape or wax tape systems. They provide a smooth profile to minimally prepared surfaces (SSPC SP 2-3) and contain no VOC’s. Water, acid or salts from the environment do not affect Denso’s sealing and molding mastics.

SEALING & MOLDING PRODUCTS

DENSO PROFILING MASTIC
Petrolatum Molding Mastic

DENSYL MASTIC/MASTIC BLANKET
High Temp. Molding & Filler Mastic

DID YOU KNOW?
DENSO WAS ESTABLISHED IN 1883 AND HAS BEEN SERVING THE INDUSTRY FOR 135 YEARS.

PRIMERS: Denso paste and primers are used in conjunction with petrolatum tape and SeaShield Marine corrosion control systems. Our primers contain moisture displacing corrosion inhibiting compounds that are easily applied by hand or brush.

DENSO PRIMER D
Bitumen Tape Primer

DENSO HI-TACK PRIMER
Hi-Tack Petrolatum Tape Primer
PROTECTIVE OUTERWRAPS: To protect your pipeline’s external corrosion coatings during installation, from directional drilling and rocky backfills to name a few, Denso offers an array of protective outerwraps. From fiberglass spacers to protective pipeline mesh Rock Shield, we got you and your pipelines covered.

BITUMEN & BUTYL TAPE SYSTEMS: High performance adhesive tapes for above ground and below ground pipeline corrosion protection, weld joints, fittings, fabrications and repair of geomembranes. Denso offers a complete line of cold and hot applied tapes ranging in 10 to 60 mils in thickness.
Step 1 - Densyl Mastic

Densyl Mastic shall be used to provide a smooth transition between the tank base and the concrete.
Mold the compound into a round configuration and apply around and in-between the circumference of the tank edge and concrete base to fill voids and reduce sharp edges.

Step 2 - Denso Hi-Tack Tape

Apply Denso Hi-Tack Tape starting a minimum of 1” onto the concrete base applying circumferentially around the concrete and steel tank base.
If an additional layer is required to cover at least 1” onto the steel tank base, it shall be applied with a minimum of 1” overlap onto the first layer of Denso Hi-Tack Tape.

Step 3 - Denso FB 30 Tape

Apply Denso FB 30 Tape starting a minimum of 1” below the Denso Hi-Tack Tape and proceed circumferentially around the concrete and steel tank base.
If a second layer of Denso FB 30 Tape is required to cover at least 1” over the Denso Hi-Tack Tape onto the steel tank base, it shall be applied with a minimum of 1” overlap onto the first layer of Denso FB 30 Tape. Make sure all seams and overlaps are pressed out and adhered.

Step 4 – Denso Weathershield 55

Mix thoroughly to achieve an even colour. Apply by brush as a topcoat to the Denso FB 30 Tape at approximately 18 to 20 mils.

THE DENSO TANK BASE PROTECTION SYSTEM MEETS THE API-653 STANDARD FOR TANK CHIME INSPECTION.
ALTEK provides top of the line coating application accessories for all your needs.

**ALTEK GREEN POLY BRUSHES**
- 2” (50mm)
- 3” (75mm)
- 4” (100mm)

**SCOUT BRUSHES**
- 1” (25mm)
- 2” (50mm)
- 3” (75mm)
- 4” (100mm)

**ROLLER CAGES**

- 240mm

**ROLLER SLEEVES**
- 190mm
- 240mm

**SUPER MIXER**
- 190mm
- 240mm

**COATING INSPECTION KITS**

**GREASE MONKEY GLOVES**
- 8 Mil

**STIR STICKS WET FILM GAUGE**
- STRENGTH THROUGH DISTRIBUTION
- 500 / Case
**VESSEL ANODE & ADAPTER ASSEMBLY**

ALTEK cylindrical anodes are recommended for use in heater treaters, pressure vessels, barges or any other type of structure requiring a compact, replaceable Aluminum anode. The characteristics of the alloy make it ideal for higher temperature or lower chloride salt water environments.

**VESSEL ANODES & ADAPTERS**

**PIGTAIL**

Built with a 0.01 ohm wire shunt, checks the current between the anode and the structure.

**FLANGE INSULATING GASKET KITS**

Phenolic gasket, poly sleeves, washers manufactured according to ANSI B16.5 specifications

**VESEL ANODE ADAPTER**

Coated with HD FBE for high resistance to chemicals, abrasions & impact.

Designed with sizes that fit into most flanged access ports on a tank or vessel.

The internal Vessel Anode Adapter bolts onto most ANSI rated flange access ports and can hold several sacrificial anodes (when supported internally).

**TEFLON SUPPORT ROLLER**

Made from pure Teflon.

Zinc coated steel hardware included to secure the tank.

Support body is 2-1/2” wide and 1-3/4” tall, End caps are 1/2” wide and 3” tall.
HISTORY

Altek Industrial Supply Ltd. was founded in 1999 by Fred and Debbie Atema when they saw a market need and capitalized on an opportunity. Drawing from their industry experience since the mid 1970s, they built a company with a strong desire to focus on customers’ needs.

Since then, Altek has succeeded by staying true to family values, hiring and retaining top talent, carrying a large inventory of quality products, and developing a network of committed customers that know Altek delivers on every promise.

STRENGTH THROUGH DISTRIBUTION

All of our products can be accessed through your local distributors. We believe this ensures your communities’ continued strength and allows the highest level of support for the users of our products. We are stronger together.

MISSION AND VISION

- To be the most trusted and preferred partner of our customers & suppliers by creating long-term relationships built on trust
- To provide needed products of the highest quality to the Oil and Gas industry through a large inventory and world-class technical support and customer service
- To create and sustain an excellent work environment for our employees
- To give back to the communities and industries that support us
